

Aliyah Othelia Piel

Junior Web Developer

Profile

Motivated IT student with a growing passion for web development and digital design, currently building foundational skills through hands-on learning. Known for being collaborative and dependable, consistently submitting quality projects and assignments on time. A supportive team player who is always ready to help others to the best of my ability. Committed to applying my knowledge, values, and perspective as a JMARIAN in both academic and professional settings.

Experience

2024 - 2025

Jose Maria College

IT Student | BS in Information Technology

Currently studying core IT subjects such as programming, networking, and web development. Engaged in class projects involving HTML, CSS, and Java applications.

2024 – 2025

Jose Maria College

Web Development (Personal Project)

Built a functional ATM simulation in Java with user login, balance management, and transaction features. Practiced object-oriented programming and user interface logic using the console.

2024- 2025

Jose Maria College

Website Designer (Practice Projects)

Designed and developed responsive portfolio websites using HTML and CSS. Focused on user-friendly layouts and visual storytelling through personal branding.

Education

2024 - 2025

Jose Maria College

Bachelor of Science in Information and Technology
